Seminar Development and Delivery

Dear Sir's

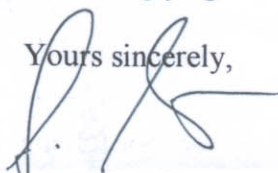

This is a confirmation that Mr. Oliver Lehmann, PMP, from Ismaning, Germany, developed and performed a custom training curriculum " Project Management at PeopleSoft".

The curriculum consisted of 16 days in 6 seminar sessions between June 2002 and August 2003. It was developed for PeopleSoft according to the needs defined by the PeopleSoft Project Management Office.

The seminar included the Knowledge Areas as they are described in the PMI's standard document PMBOK Guide (A Guide to the Project Management Body of Knowledge).

We strongly agree that this course met all of its stated objectives.

Yours sincerely,

Joerg Moeller
