| 1 Jan 2005 - 31 Dec 2007 | 65 | 0 |

* PMPs may submit PDU claims up to twelve months after the expiration date of the cycle in which the activities were completed . This applies to credits needed for the minimum  requirements  of the cycle and any transferable  credits earned in the cycle. Note : All of the required PDUs must be completed  and reported  no later than the cycle expiration  date to avoid suspension .

For example :
Cycle dates 1 January 2005 - 31 December  2007
31 December  2007 - PDU submission  deadline  to avoid Suspension
31 December  2008 - Final PDU deadline  for all claims completed  in this cycle (regular requirements  and transfer )
*PMI recommends submitting PDU activity reporting forms as soon as possible after completion of the event.*

**The PMI Records office processes  all PDU claims submitted  by a PMP even if the submission  is not applicable  toward their renewal requirements . For example : Submission  of an activity completed  prior to the start date of a PMP 's certification will be posted despite the fact that it will not be included  in the PDU totals  for a renewal cycle.

***Up to 20 excess PDUs completed  during the final year of the current CCR cycle may be applied  to the next CCR cycle. PMPs should report these additional  PDUs normally . The transfer will be done automatically . Transferred PDU amounts are included in the next cycle's listed total . NOTE : Transferable  credits are not awarded for PDUs claimed in excess of the maximum  amount allowed through a limited PDU category .

****Meeting the 60 PDU requirement  does not automatically  complete  the renewal program . An application  for certification  renewal is mailed to each PMP when they meet or exceed the necessary  number of PDUs .
Completing  and returning this application  will finish the renewal cycle.
*To ensure proper delivery of this application please notify PMI of updates to your contact information when they occur.*
